

LIFE SENIOR SERVICES

Life Senior Services relocated its administrative and business offices to the 8th floor of the recently renovated Legacy Plaza East. This completely new build-out included fourteen offices, twenty-four workstations, two conference rooms, a breakroom, and a reception area to support the nonprofit's administrative staff. The open floor plan provides daylighting and 360 degree city perspectives for all employees, while clear and easy circulation promotes connectivity for the team. Soft blues and greens mixed with wood tones warm the space. KKT also assisted this client with signage, branding, artwork, and furniture selection.
