

## ARROW SPRINGS EARLY CHILDHOOD CENTER

Broken Arrow Public Schools selected KKT to transform an elementary school into an age-appropriate Pre-K center. KKT created solutions to make the renovated building aesthetically and functionally appealing to parents, faculty members, staff, and the children the school serves. The Arrow Springs addition and remodel doubled the square footage of the existing building while reorienting the building to face a future arterial extension. By creating a focal point for the entry, KKT improved way-finding and established a distinct architectural character for the building.
