

CIMAREX ENERGY CORPORATE HEADQUARTERS

KKT designed the interiors for Cimarex Energy as the largest tenant of a new 17-story office building in downtown Tulsa. KKT created departmental plans identifying size, amenities, necessary adjacencies, department stacking, equipment planning, and furniture procurement. The final design is ten floors of private offices surrounded by work rooms, large and small meeting rooms, common areas, and break rooms. The design provides thoughtful flow as well as flexibility for future reconfigurations at minimal costs.
