

GABLE GOTWALS - OKC

The Gable Gotwals 18,000 square foot office recently relocated to the BOK Park Plaza building in downtown Oklahoma City. The goal for the design was to increase connectivity and transparency among the team and provide more opportunity for the firm to collaborate together. To achieve these goals the offices are visually connected with interior glazing, touch down spaces provided throughout the office, and expansive views of Oklahoma City allow for prime office experience and culture.

The design of the office space incorporates the specific Oklahoma City brand identity which includes light finishes and sophisticated interior design to highlight the transparent brand.
