

## MUSKOGEE SWIM + FITNESS CENTER

The Muskogee Swim and Fitness Center hired KKT to do a masterplan and support their fundraising needs. Our team assisted with site analysis and provided various options and phasing opportunities to consider. The first phase of development is an interior remodel of the fitness space and a relocation of front lobby desk. This phase is expected to become a reality in mid to late 2024. Future phases include other areas of interior updates and expansion of the building to accommodate new fitness services to their clients and the community.
